

EDL mini-ram hydraulic post rammer

Specifically
made for
mini diggers and
JCB's 2.5 ton
and above
Full 12 month
warranty

High performance heavy duty post rammer – both simple and efficient to use, capable of driving 8" diameter posts up to 10' in height

- Heavy duty 200kg weight made from one solid billet of steel*
- Post hold plate: holds post in position whilst ramming, prevents post top from splitting
- Multiple bracket positions for off-set boom
- Adjustable boom leg to set post height and increase rammer stability
- Uses full bore hydraulic cylinders to prevent piston rod corrosion
- Maintenance free heavy duty nylon rollers with 25mm rope, 10 ton breaking strain
- Bolt on brackets (included in price for machines under 4 ton) maintain rammer's flexibility between machines; quick hitch compatible
- Fully welded construction like no other rammer on the market
